When he attended a John Brown meeting in Ashtabula, he made a speech, and out-does the Brownites by buesting that he once hid a sun-away slave in a church steeple! When he accompanies the fugitive party to Wheeling and enjoyed the hospitality of the elder Goshorn at his mantion, he accommodated himself to the fures of circumstances by arguing in favor of the beauties of Slavery. Some one present in the party had the cruelty to enquire of him wif he was the individual who boasted at a John Brown meeting of having hid a run-uway slave in a church steeple?" Universal White Suffrage to be Abelished The Southern Literary Memenger for Junuary, published at Richmond, in Virginia, has just been revealing some of the purposes of the slaveholder rebels, in breaking up the Union. One of them, and the main one, is to abolish universal white suffrage. It declares the experiment of a Republican Govarmuent, based upon the universal suffrage of the white man, to be a disgraceful fullury, and openly arows the design of the rebels t be to create a Southern Republic, upon white suffrage, limited to men of sufficient property for annual subsistence upon usufruct! In other words, the policy of these rebels is, to reduce society in the Slave States to the feudal condition again, with African Stavery for its basis, and to adopt such legislation as will compel the poor white man to that there were not twenty of them who of the Indian Trust Fund bonds from the Inemissate, and to confine the dominant class to the famest possible numbers. This is but a natural sequence of the policy of the dis-

and inflamous law. And upon the colored citizens especially it urges forbearance and Abelitlenism. We have received several communications righteons one, in order that the North may taking ground against our remarks, a day or rive to the South convincing proof of its two since, upon Wendell Phillips' late fidelity to all Federal laws and its willingness to carry them out, however obnoxious, until speech, in which he denounced the Union, inly repealed or modified. When in the South scarcely a week passes but Northern men are tarred and feathered, and banished or hung, for no other publicans could not be charged with fellowship with Abolitionists, following the lead of Mr. Phillips. At the same time, it is but right to say that there are two classes of Ab olitionists—the disunion or Garrisonian Abn Texas and hung, on the bare suspicion of solding abolition sectiments, and when any olitionists, and those whose cross does not demand of them an unconditional onslaught claim to have his murderers brought to jus upon the Constitution and the Union, but who tice would be treated with derision-in such roumstances we do not think the people of pray for the speedy abolition of slavery, by Reveland bught to be very punctilious in discharging their obligations to the infamous slave law. If to-day, law or no law, they should take the girl Lucy out of the hands of the captors, and give her a free pass to Canany lawful means. Of the former class Wendell Phillips stands at the head; the latter includes very many Republicans, and even many slaveholders, who desire to be rid of ada, or defend her in Cleveland against all the curse that is resting upon the Southern aggressors, their violation of the unjust law portion of our country. All Abolitionists nacted by the strong against the weak would not only be pardonable but praiseworthy, as a testimony of their allegiance to the higher law of humanity, and to the Divine law should not be held responsible for the disunion sentiments of Wendell Pkillips, any more than all slaveholders for those of Yanwhich says:-"Thou shalt not deliver unto ony and Toomba.
